ABOUT DYAD

Dyad is a private strategy consulting firm founded in early 2019 and owned and operated by Dr. Katherine J Stephenson. Based in California's Silicon Valley, Dyad excels at matching business and clinical needs with the engineering pathways to meet them. Whether evaluating opportunities, performing custom research, facilitating events or providing critical input during planning activities, Dyad is a technical resource that understands the many sides and continually evolving context of new life science ventures.

Dyad Engineering, LLC is registered in the state of California and is a certified Small Women Owned Business (SWOB).
